Fund Objective and Policy

JK Japan Fund is an open-ended UCITS fund incorporated in Ireland. The investment objective of the Fund is to achieve long term capital appreciation. The Fund will seek to achieve its investment objective by investing in a portfolio of Japanese equities that the Investment Manager believes to be undervalued given their long term growth and business prospects. The Investment Manager uses a variety of measures to determine whether or not a company is undervalued, but the central philosophy is to invest in strong business franchises, that have good long term growth potential, and where the Investment Manager feels that this growth potential is being undervalued by the market.
