Fund Attributes

- Blends top quality value and growth companies
- We believe the market undervalues 'quality compounders'
- Japan offers excellent thematic opportunities
- Active approach seeks quality companies, combined with an acute eye on valuation metrics.
- We believe Japan is a market where you can add alpha.

Investment Objective

The investment objective of the Fund is to achieve long term capital appreciation. The Fund will seek to achieve its investment objective by investing in a portfolio of Japanese equities that the Investment Manager believes to be undervalued given their long-term growth and business prospects.

Fund Highlights

Japan is undergoing a fundamental shift, with corporate governance reforms and the transition from deflation to inflation creating powerful tailwinds for investors. Companies are increasingly prioritizing shareholder value, with record share buybacks and rising dividends signalling a new era of capital efficiency and improved governance sentiment.

- Alpha rated manager with 38 years of experience investing in the Japanese stock market.
- Large cap core blended strategy, doesn't take very large tilts towards either value or growth.
- The fundamental changes we have been waiting for in Japan are finally happening.
